**RACQUETBALL™**

You are a racquetball player, and you have accepted the challenge of a formidable opponent. Both combatants enter the arena through the opening in the wall, and the frenzied game begins with the crack of the racquet against the first ball. The pace is fast and furious as the ball recoils from the backboard at ninety miles per hour. Are you fast enough to react in time to return the ball? Can you endure the fast pace and vanquish the opponent? If you are willing to try, it will leave you as breathless as a real game on a real court. WARNING: Don’t let your opponent ace you...

**THE SET-UP**

Racquetball™ is played with one or two players using the Joystick Controller. Be sure the power is off when you insert or remove Racquetball™ from your video game system.

**THE DIFFICULTY SWITCH**

Placing the difficulty switch in the "B" position will allow the player to more easily control his shots, while accuracy is more difficult in the "A" mode.

You may vary the positions of the Difficulty Switches to provide a handicap advantage for a less experienced player in a two player game. Simply place the switch in position B for the inexperienced player, and position A for the veteran.

**RACQUET STROKES**

Start your serve by pressing the red button. To hit the ball, move your player to make contact between his racquet and the ball. NOTE: You will know that you have moved your player into range to hit the ball when the ball’s shadow is at about the same level as the player’s feet. The racquet will swing automatically when the player is moved into range to hit the ball.

**THE JOYSTICK CONTROLLER**

Hold your Joystick Controller so that the red “FIRE” button is in the upper lefthand corner. Use your joystick to move your player across the floor of the court. He can move in any of eight different directions as illustrated above. In one-player games, the computer controls the right player/ joystick.
SCORING

Scoring is identical with official racquetball rules. When you serve the ball, it must hit the front wall before touching the floor. The other player can return the ball before it bounces on the floor, but must not let it bounce on the floor twice. You serve until you miss. If you are serving when your opponent misses, you get one point. NOTE: You only make points when you are serving. The first player earning twenty-one points wins.
LIMITED 90-DAY WARRANTY

Games by Apollo™ warrants to the original consumer purchaser that your Games by Apollo™ unit is free from any defects in material or workmanship for a period of ninety days from the date of purchase. If any such defect is discovered within the warranty period, Games by Apollo™ will repair or replace the unit free of charge on receipt of the unit, with proof of purchase.

Any applicable implied warranties, including warranties of merchantability and fitness, are hereby limited to ninety days from date of purchase. Consequential or incidental damages resulting from a breach of any applicable express or implied warranties are hereby excluded. Some states do not allow limitations on how long implied warranties last and do not allow exclusion of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

NOTE: All returns must be sent to Games by Apollo™, 1300 E. Arapaho Road, Richardson, Texas 75081, and NOT the retail store where the unit was purchased. This warranty does not apply to defects resulting from abuse, alteration, or unreasonable use of the unit.

Write Games by Apollo™ today, and ask us to put your name on our mailing list. Then, as each new Apollo video game becomes available, you'll be among the first to know!
